

What's the Big Picture?

Children's Summer Series: "What's the Big Picture?" -- Lessons adapted from the *Big Picture Story Bible* written by David Helm (Crossway).

Summary:

This summer the Church at Spring Hill will be offering some fun activities for the kids along with a short focused lesson each week from the *Big Picture Story Bible*. The *Big Picture* is very different from most children's story Bibles in that it shows how the whole Bible fits together as one cohesive story that culminates in the person and work of Jesus Christ. Adults as well as children can benefit from reading through this book. In fact, there is at least one seminary professor who has considered adding this book to the reading requirements for a class because the book does such a good job of "connecting the dots" between the various stories in the Bible.

Teaching Guide:

Each week we plan to supply parents with guide each week with a brief summary of the lesson along with a few points to discuss with their children along with a few helpful hints as to how to continue the teaching throughout the week. If you find it difficult initiating a discussion with your children, let us know because we would be glad to help you in any way we can.
